4 PORTANT OFINION—The following opinion of the most important, in its effects, that has been delivered in Pennsylvania. It explains the several acts of Assembly in relation to the ridow's dower in her deceased husband's estate, and gives a construction to the recent staticts, known the "Married Women's Act." This decision eaches every hearth within the State of Pennsylvania.

reaches every hear? Within the State of Pernsylvania.

In the Malier of America Appeal.—Coulter, I.— the lith Sec. of the of 120° relating to last wills and testements, et acts that a devise or bequest by a brishand to a wife of any portion of his estate or property, shall be deemed and taken to be in lieu of and bar her of her dower, provided that nothing herein contained shall deprive the widow of her capice of dower or of the estate or property so devised. If the word dower in the provise is construed to mean dower at common law, so also must the same word in the enacting clause be construed in the same way. It would seem, therefore, that the wife was only barred of her dower at common haw, if she accepted under the will finary part of the personal estate remained undisposed of by the will, as to that she would take under the insattate laws her rateable portion, not being harred by the statute, either in its letter or by its spriit. In Lianewaver y Stower, I W & S 166, it was held that the acceptance by a widow of her share under the intentate laws did not bar her from recovering her dower of land aliened by her husband in his life time.

There is a pretty strong analogy between the two cases: the intert showing the terdeacy of the law to favor the

of her share under the intectate laws did not bur her from recovering her dower of land aliened by her husband in his life time.

There is a pretty strong analogy between the two cases: the inter showing the terdency of the law to favor the claim of the widow, to her full share under our own act of distribution, if she chooses to claim it, rrespective of the claim of dower at common law. But previous to the act of 179, the law was held to be that equity would interpose to her the widow only where the implication that she should not have both dower and the devise or bequest, was strong and necessary; as wasse the devise or bequest, was strong and necessary; as wasse the devise was entirely accounted to the whole will from taking effect.—that is, where the claim of dower would destroy the will into the would necessary as Netson. 2 Dal 418; Hamilton as Bucawaller. 2 Netson. 2 Dal 418; Hamilton as Bucawaller. 2 Netson. 3 Dal 418; Hamilton as Bucawaller. 2 Netson. 3 Dal 418; Hamilton as Bucawaller. 2 Netson. 3 The sat of 174, sat singer estate under the will then her dower, it shall not be in her thereof, unless so expressed. The act of 174, sac. 1, proxides, "that is he share of the estate of the rate tate in this act, directed to be allotted to the widow, shall be in lieu and satisfaction of her dower at common law.

This act settles what had long been confested, but uniformly decided in flavor of the widow. Under this act, when she given up her test amen may right, she stands, as it regards devisees, in the light of a parchaser for consideration, not a voinnteer for her shore under the statute. Figring the election is indisputable, and it was ruled in Dancan vs. Duncan, 2 Yates, 302. "That the determination of her choice must be by plain and explicit acts, under a fall knowledge of the circumstances of her husband and of her own rights." Then came the act of 1833 already cited, in which the words at common law, can take and of the act of 1833 shall not depart the wild of her husband, of her share of the personal

widow may take her choice either of the bequest or devise, or of her share of the personalestate, under the intestate laws.

This, Sir, may have been the result of a belief by the Legislature, of the words at common law in the act of 1831, avowed the intention, to use the word dower not in its technical sense, but as equivalent, to her distributive share under our own statute. It is of no consequence whether it is called a declaratory law or an original enactment because it was passed a year or more before the testator's death. It forms the rule of decision here.

It was vehemently urged that this act is unconstitutional, because the right of the wife is first at the time of the marriage, and this not interferes with rights already vested and alters or destroys them. But we know not where the parties were united in wedlock, or under what law of domicil these rights vested or whether at that time they centemplated a residence either permanent or temperary in this State.

Here in this Commonwealth, laws have been passed from time to time altering our statute of distributions, and altering the manner of making wills. These laws have been considered sound and good, if in existence, and operative at the time of the testator's or dececant's death, no ma ter whose inchoate interests they affected. The Legislature might repeal or annul the common law right of dower, and they might repeal the statute of distribution.

There is no natural or indecastile right of dower at common law, resulting from the marriage contract, no matter when celebrated. The law is perfectly consistuational. It is violative of no vested right; we give it no retructive efficiency. If the decrime of the respectable counsel were sustained, it would upset many estates in the Commonwealth.

A doubt has been expressed whether this not does not doubt has been expressed whether this not does not does not appear to the respectable counsel were sustained, it would upset many estates in the Commonwealth.

executor, as such, and the widow, who are contestants ut a matter which does not involve the distribution of

about a matter which does not involve the distribution of real estate.

But the widow is entitled to elect, not to take under the will, in which case she will be entitled to not share or distributive part of the personainty beyond all doubt or card. And in order that she shall be enabled to make that election with a knowledge of the curcumstances of her housband and her own rights, she is entitled to a full and just amount of the personal estate of the decedent.

By petition to the Court, she impeaches the inventory and amount furnished by the executor, which petition is verified by her each. Her application to the Court is under the 22s ection of the act of March, 1834, which requires removal of an executor who does not file a true inventory upon the application of "any person interested. The widow is interested, has a good stanting in Court, and is entitled to have her care proceeded in to final adjudication on the merits.

upon the application of "any person interested." The widow is interested, has a good stanting in Court, and is senutised to have her care proceeded in to final adjulication on the merits.

I make no account of the objection that the widow dril not apply for the appointment of an examinar. Our Orphans Court is courted on not proceed exactly in gostormity with chancery forms. Sile did apply for the appointment of an auditor to examine and report upon the facts involved in the petition and answers. An auditor is the proper and standing officer of the Orphans Court for that purpose. But the Court refused, and decided that the was not a party in interest and diaminated the petition.

In this there was error, I say nothing of facts spoken of in the argument as to what property the decedent ought to be considered secred or passessed of at the time of his death. That would depend upon the testimony were taken. The only point before this Court is, whether the petitioner had note an interest as gave her a stunding in the Court. We think she had.

2 Decree reversed, and procedende awarded.

The Atlantic's advices, received this windring, are an favorable for Brigadistry to the market. There is but title export demand, and the only sales reported are 300 or 900 bins standard and good brands at \$4.37 g. bbl., at which there are free sellers, including one lot at something less. The sales for city consumption are on a more restricted ecale, at \$4.37 a \$5.50 for common to good brands, \$4.46 g. \$5.37 g. for choice brands and extra, and face Otho and New-York at higher quotations. THURSDAY, Feb. 26-P. M.

The market for Stocks to-day was not very active, and shows no marked change from yesterday excepting in Erie, which is i P cent. lower. The Securities however of this Road are in better demand and advancing. Convertibles are i P cent better. Reading, with a small business, closed at yesterday's prices. Mohawk advanced 1 P cent. Hudson and Long Island are steady (Can ton declined i P cent : Norwich improved i P cent. Morris was firm. The Zinc Stocks continue to improve. New-Jersey is 12ic. P share and Sussex 25c. P share better. There is a much better feeling in Governments, and 6s sold at 116t, an improvement within a few days of 14 P cent. The market was rather dull at the close.

There is but little doing in Exchange and rates are unchanged. Sterling 10@10t; Francs 5.171 @ 5.161. The supply is not large.

In Freights the movement is moderate and shipmasters are firm. The ships on the berth, to sail soon, are full. Engagements, 500 tcs. Beef, 3s. 6d.; 500 bbls. Sand, 2s.; Flour, 2s. asked; 1,500 bales Cotton, id.: 500 Oars, id. To London, 1,000 bbls. Flour, 2s. To Havre the market is dull attic. for Cotton. There is a fair business doing for California at previous rates.

The Interest Cupons, due 1st March, 1852, on the Delaware County Bonds issued to the Cleveland, Columbus and Cincinnati Railroad Company, and also on the Income Bonds of said Cleve land, Columbus and Cincinnati Railroad Company, payable in New-York, will be paid on and after 1st March, at the office of Winslow, Lanier & Co., No. 52 Wall-st.

The receipts at the Sub-Treasury are small, \$75,004; Payments, \$57,565; Balance, \$2. 440,087

The supply of Money to-day is very large, and the tendency of rates on call is downward. The demand, although active, does not equal the supply. Short paper of first-class is wanted, and is scarce at 6@8 P cent. Anything but first class is difficult of negotiation. The Banks, with some exceptions, are free lenders.

We were misinformed in relation to the connection between the Canandalgua and Niagara Falls and Cohocton Valley Roads. The arrangement spoken of has not yet been made.

Payments from the Sub-Treasury of nearly six hundred thousand dollars have recently been made to parties who are connected with the Mexican Indemnity arrangement, and may have been on that account.

The advices by the steamer are scarcely so favorable for our produce as some of the previous accounts. There appears, however, to have been no further decline since the previous steamer; still, Breadstuffs were heavier, with less activity. This was and most likely is only a temporary check. Cotton had been heavy, but at the latest accounts, under favorable advices from Manchester, there was some activity and a firmer feeling. Money was without ect. The Bank of England was unable to employ their surplus funds. Messrs M. J. Wilson & Co. India merchants, had failed A large railroad contractor is also reported failed for £60,000. The net receipts of the revenue of Great Great Britain in the year ending 5th ult , were £52,-233,096 16s. 5d., and the expenditure, £49,505,610 11s. 7d; leaving the excess of income over the ex-penditure, £2,726,396 4s. 10. According to the balance sheet, the balances of public money in the Ex-chequer on the 5th January, 1851, amounted to £9,245,676 Is. 2id., and on the 5th uit. the balances were £8,381,637 2s. 4d.

The effect of the foreign news here has not been important. The Cotton market to-day is unchanged, but the movement in Breadstuffs is checked, and Flour is 64. lower. The light stocks in market have, however, a strengthening induence. The bill in regard to the redemption of

New-Jersey Bank notes still hangs in the Legislature. As a matter of justice to the community it would probably be their duty to pass it, but as a matter of interest to themselves they will gain by letting matters remain as they are. The banks established under this law will assist in paying their taxes and supporting their schools, while the evils of the eyetem fall upon us where the notes circulate.

The gross receipts of the Housatonic Railroad for 1851 were \$329,041, an increase of \$19,000 over 1850. The expenditures were \$160,129, showing an excess of receipts over expenditures of \$168,902. Deducting the rents of the Berkshire and Stockbridge Railroads, \$74,808, the net receipts are \$74 094. Interest on bonds \$21,000; paid on floating debt \$57,402. The whole of the floating debt will probably be paid off during the current year.

Liberal subscriptions are being obtained to the Albany and Susquehannah Railroad.

The Sacketts Harbor and Saratoga Rail. road Company has been organized.

At Boston the Money market continues to become easier. The street rates are 6@7 P cent The Philadelphia Ledger says it is generally conceded that the opening of the Spring Trade in that city will be followed with unusual buoyancy and a general rise of prices. These conclusions are founded on the fact of the known want in the market for all the anthracite coal that the various avenues can supply, and the general close condition of all business. The last year's stringency in the money market has pretty much lopped trade of all its redundancy, and yet business is in that healthful condition that it can spring into unusual activity. The "good time coming" seems to be close at hand. Money continues easy, and good paper continues to be placed at 7+28 p cent.

Disasters, &c.

Conk. Feb. 9—The ship Constantine, Capt. Banting, of and for New York from Liverpool, is now being to wed into port, we understand short of water. The Paxton, Capt. Card, from Liverpool for Baltimore, laden with salt, put into this port on the 29th vit., leaky; has been discharged, and is now being castled.

Bahk Mark Annah, at Baltimore from Liverpool reports, Jun. 5, lat. 4 th., long, 31 30 W., in a heavy N. W. gale, sorung foremast; had a succession of westerly gales for 18 days; worked to the southward in the meantime to lat. 30, then get better weather, and continued the passage to the weatward.

Built Hermann, at Baltimore from Rotterdam, experienced a continued succession of westerly gales, split saits. &c. Jan. 18, lat. 46 21 N., long 25 15 W., felt in with a bank water-logged and abandoned—nizau mast only standing.

bark water-logged and abandoned—nizen mast only standing.

Androssen, 9th—The Lord Warriston, Hamlin, from Liverpool for New-Orleans, which sot ashore on Adisa Cring, on the 5th ait, was floated off yesterday by means of a platform. The ship got clear off the rock about 1 P M, and arrived here under tow of steam tag Conqueror, of Greenock, about 2 P M. She is but little damaged.

Millyond, 7th—The Wilkinson, Barton, from Dublin for Savannak, in ballast, was out as far as 13 27 W., and was obliged to bear up on account of the captain being unwell, and study change asstained through stress of weather.

Sulp Shanung moved off shore on 2M and 24th, some on of fiber feet. Steamer R B. Forbes went round to her afternoon of 14th, from the bar, and with her assistance it is believed that the may be got off 25th.

Ship Constantiale—One of the owners of the ship Constantial, gives the following account of the disaster: The

Shift Constanting.—One of the owners of the ship Constantine, ashore at Fire Island, who writted the wireck recently, gives the following account of the theorem. The canthor of the constant of the disaster: The C. anchored at 5 A M. It hinst, near Sandy Hook, burned blue lights and used other means to set a plot without effect. Her guns could not be fired, as the authorities at Favre had taken away all ker gunpowder. The wind suddenly shifted to W. S. W. and at 5 A. M. her chain parted and fearing that he should a rike on Romer Shoul, Captain Perhans stood to sea and made Fire lefand Light at 5 P. M., and judged himself to be 10 or 15 miles from land, but was deceived by the hang state of the atmosphere. Breakers being discovered, attempted to wear ship, but his sails being in bad condition, did not succeed. Finding the ship must go on above, ran her bow on. Next morning the made and two men landed. The life boat made an attempt to the strong wind got among breakers and sut back. At daybreak on Friday, the life boat, steered by Mr. Smith, wreck master, and three surf boats steered by Mr. Smith, sund manned by hardy cre ws, made a determined effort to react the 415 massengers. In their humane sadeavors they scarcely allowed themselves time to take any food, and srove, wet and cold, until 7 o'cleek at night, when ther had the satisfaction of landing the whole in safety, as also the crew. The approach to the ship was very dangerous in consequence of the fore and main masts, which had been cut a way, hing alongade, with the broken parts, working in the holling surf and threatening to piece the wast. The passengers were slang in tube over the bow, and two women, who had given birth to children only two days previous, were wrapped up in beds, and thus how, and two women, who had given birth to children only its of the proper of Fire Island and the viciaity seemed determined to efface the unfavorable impression a
